Dependable Linen for Healthcare Environments

Evergreen Linen Supply LLC supplies practical linen and textile products for hospitals, clinics, nursing facilities, rehabilitation centers, senior care communities and other institutional healthcare settings.

Patient Comfort

Soft, functional textile options selected for everyday patient use.

Institutional Durability

Products can be specified for repeated commercial laundering and frequent use.

Bulk Supply

Order quantities can be planned for facility-wide purchasing and replenishment.

Custom Specifications

Size, fabric, weight, color and construction options may be available by product.

Product Categories

● Patient Bed Linen

● Patient Apparel

● Towels

● Healthcare Support Products

Our Supply Approach

We focus on straightforward product specifications, consistent quality, competitive bulk supply and responsive service. Product availability, exact specifications and lead times are confirmed at quotation.

Complete Patient Bed Linen Program

Comfortable, practical bedding and protective textile options for healthcare environments.

Hospital Flat Sheets

Versatile top sheets designed for patient beds and routine linen programs.

COMMON OPTIONS: cotton/poly blends • white or facility colors

Hospital Fitted Sheets

Secure-fitting sheets for standard healthcare mattresses; knitted or woven constructions may be specified.

COMMON OPTIONS: fitted/contour • multiple mattress depths

Pillow Cases

Simple, comfortable pillow protection for patient rooms and treatment areas.

COMMON OPTIONS: standard sizes • white/colors • cotton/poly

Draw Sheets

Practical intermediate sheets used in patient-bed linen programs and care settings.

COMMON OPTIONS: reinforced construction • bulk packs

Bed Spreads

Easy-care bed coverings for patient rooms, long-term care and institutional environments.

OPTIONS: woven textures • facility colors • multiple sizes

Thermal Blankets

Lightweight thermal blankets suitable for layering and everyday patient comfort.

OPTIONS: cellular/thermal weave • cotton or blends

Medical Blankets

General-purpose healthcare blankets for patient rooms, clinics, recovery areas and care facilities.

AVAILABLE BY SPECIFICATION: size • material • weight • weave • color

Mattress Protectors

Protective mattress layers available in fitted, pad and encasement-style constructions depending on specification.

OPTIONS: quilted • fitted • washable constructions

Waterproof Mattress Covers

Barrier-style mattress covers for applications where fluid-resistant or waterproof protection is requested.

SPECIFY: waterproof construction • closure • mattress size

Pillow Protectors

Protective covers that add a replaceable layer between the pillow and pillowcase.

OPTIONS: zippered/envelope • washable • barrier constructions

Patient Apparel for Everyday Care

Reusable gown options designed around comfort, dignity, access and practical institutional laundering.

Patient Gowns

General patient gowns for inpatient, outpatient, examination and care environments.

OPTIONS: ties/snaps • assorted prints/colors • adult sizing

IV Gowns

Patient gowns designed with access features that can support clinical care requirements.

OPTIONS: shoulder/sleeve access • snap/tie closures

Pediatric Gowns

Patient apparel sized for pediatric care, with construction and styling selected for the intended age group.

SPECIFY: age/size range • closure • fabric • print/color

Examination Gowns

Reusable examination gowns for clinics, diagnostic areas and patient-care settings.

SPECIFY: coverage • closure • size • fabric construction

Custom Gown Programs

Depending on manufacturing availability, gowns may be quoted in different fabrics, weights, prints, colors, closures and size ranges. For specialized clinical applications, provide your required construction and performance standard so the correct product can be quoted.

Bulk & Institutional Orders

Ask for case-pack information, sample availability, minimum quantities and lead times for your facility or purchasing program.

Absorbent Terry & Utility Textiles

Towel options for patient bathing, general care, clinical support and facility operations.

Bath Towels

Full-size towels for patient bathing and general healthcare use.

OPTIONS: cotton/cotton-rich • multiple weights

Hand Towels

Convenient hand-size towels for patient rooms, treatment areas and support spaces.

OPTIONS: white/colors • institutional weights

Wash Cloths

Compact terry cloths for patient bathing and everyday care routines.

OPTIONS: soft terry • economical institutional grades

Surgical Towels

Utility towels for healthcare and surgical-support purchasing programs where specified.

SPECIFY: size • color • material • intended application

Choose the Right Towel

For accurate pricing, specify dimensions, fabric content, towel weight or GSM, color, border style, packaging and quantity.

Support Everyday Facility Operations

Reusable textile and microfiber products for linen handling, environmental services and general cleaning programs.

Reusable Laundry Bags

Washable bags for linen collection and internal facility handling, available by size and construction.

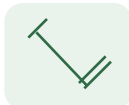

OPTIONS: drawcord • closure styles • color coding

Cleaning Cloths

Reusable wiping cloths for housekeeping and general facility cleaning applications.

OPTIONS: cotton • microfiber • color-coded programs

Microfiber Mops

Microfiber mop products for compatible healthcare housekeeping and floor-care systems.

SPECIFY: mop style • dimensions • attachment system • color

Color-Coded Programs

Where useful, cleaning cloths, laundry bags and microfiber products may be organized by color to support facility workflows. Exact colors and configurations depend on product availability.

Built Around Facility Requirements

Key purchasing, specification and performance notes from the product sections.

Specification Support

Tell us your required dimensions, fabric composition, thread count or fabric weight, color, packaging and expected quantity. We can quote products to your purchasing specification.

Built Around Facility Requirements

Healthcare buyers may require different constructions for acute care, long-term care, rehabilitation or general institutional use. We can help organize your requested specifications into a clear quotation.

Important - Protective Bedding

Performance claims such as waterproof, fluid-resistant, antimicrobial, flame-resistant or barrier protection should be matched to the exact product specification and supporting documentation.

Purchasing Checklist

Required gown type and clinical use • Adult, pediatric or other size range • Fabric composition and weight • Closure/access configuration • Color, print and identification needs • Expected order quantity

Specialized Requirements

If a gown requires a defined barrier or protection classification, request the exact test standard and documentation as part of the quotation.

Choose the Right Towel

For accurate pricing, specify dimensions, fabric content, towel weight or GSM, color, border style, packaging and quantity.

Color-Coded Programs

Where useful, cleaning cloths, laundry bags and microfiber products may be organized by color to support facility workflows. Exact colors and configurations depend on product availability.
